People love Mannheim’s numerous impressive green spaces – right in the middle of the city.

The blend of urbanity and nature is part of Mannheim’s particular charm. The rivers Rhine and Neckar, the large city parks and the small green spaces and play areas are ideal locations for play, sports and cozy picnics. You can also take a deep breath of fresh air in the nature reserves and forests just outside the city.

LUISENPARK

Admire artistically arranged flower beds, discover wildlife, enjoy culture or simply let the world go by – in the “Luisenpark”, every day becomes a mini-holiday.

Immerse yourself in a fascinating and lively park landscape. Drift about in “Gondoletta” boats, climb over rocks in the mountain stream, watch fascinating animals and enjoy a cup of tea in the largest original Chinese tea house in Europe.

WALDPARK & REISSINSEL NATURE RESERVE

Long walks in the parkland, a paradise for birdwatchers, dinner on stilts over the water in the “blue hour” of twilight, and all that in Mannheim? But of course!

The extensive “Waldpark” is located directly on the Rhine adjacent to the Rhine terraces and the “Stephanienufer” waterfront, and is criss-crossed by many paths and hiking routes. Here, you will discover meadow landscapes, waterways and abundant greenery to enjoy on a long, pleasant stroll. The park flows directly into one of the most significant river-meadow protected areas on the Upper Rhine, the “Reißinsel”. Together, the two areas provide living space for many domestic plants and rare animals, which you can discover and admire on your stroll.

INFO

For reasons of nature protection, the “Reißinsel” is inaccessible every year during the nesting and breeding season from March to June inclusive.

BUNDESGARTENSCHAU MANNHEIM 2023

The Federal Garden Show will take place in Mannheim from April until October 2023. The programme will feature 5,000 events.

A cable car will connect the new landscaped park in the city’s northeastern part with the Luisenpark across the river Neckar. It is both a horticultural show and an urban development project with space for new ideas. Moreover, it is an integral part of “Grünzug Nordost” (Greenbelt Northeast), a future recreational area, which connects 230 hectares of public green spaces.

Mannheim is green! The Tourist Information Centre Mannheim offers guided tours for groups in different languages. One of the themed tours deals with the green spaces in the city centre. Bookings and further information at the Tourist Information Centre Mannheim.

IS INSPIRING

The city is particularly impressive in terms of its varied cultural offering in the fields of science and innovation.

Do you love experimenting, and are you curious with a deep thirst for knowledge? In Mannheim, you will find the perfect places to satisfy that thirst. A monument has been built to honour the greatest inventors and pioneers, in the shape of the memorial walkway “Kurpfälzer Meile der Innovationen” in front of Mannheim Baroque Palace. Some of these inventions and many others can be admired over several levels and with numerous hands-on stations in the “TECHNOSEUM”. If you would like to explore the depths of space, the planetarium will be the perfect address for you. Culture for both old and young, packed up in a brilliant and fun way!

TECHNOSEUM

A museum for young discoverers and grown-up inventors and doers full of action and courage!

200 years of technological and social history and over 100 experimenting stations are just waiting for you to discover them! Paper production in a tub, a fully functional steam locomotive and dancing robots make this visit a fascinating experience for all ages. Beaming children’s eyes, red cheeks of excitement and an awakened pioneering spirit are often side effects of a visit.

Visitors are expressly invited to touch things and try them out: send a pneumatic post, count on the abacus or lift a 275-pound stone by climbing into a pedal crane and using your own muscle power.

A trip to the moon? A walk through the Milky Way? It’s all possible at the Mannheim Planetarium!

At the planetarium, you can delve into the fascinating world of the stars, the planets and the galaxies. The visitors are enchanted here with a realistic night sky, that would nowadays only be visible in extremely dark locations or from space. At one of the regular special events, you can dream yourself all the way to different galaxies accompanied by the sounds of Pink Floyd or Queen, or forget everyday life listening to an audio drama. As well as classic astronomy programmes, the Planetarium also stages concerts under the star-studded sky, lectures in various languages and special presentations for children.

KURPFÄLZER MEILE DER INNOVATIONEN

Mannheim and its region have always stood out because of brilliant minds.

Such geniuses have created numerous inventions here over the centuries, that have shaped our world and doubtless even your everyday life today! To honour these pioneers and their innovations, there is the memorial walkway “Kurpfälzer Meile der Innovationen”. It consists of 42 bronze panels that are gradually being placed in the pavement directly in front of Mannheim Baroque Palace, and that provide information about the respective inventions.

Carl Friedrich Benz
In 1886, Benz was awarded patent no. 37 435 for his “Benz Patent-Motorwagen” that was developed in Mannheim – the birth certificate of the automobile.

Karl Freiherr von Drais
His most important invention was the “Laufmaschine”. With this wooden fore-runner of the bicycle, he rode on 12 June 1817 from Mannheim Baroque Palace to the horse relay station in the avenue “Relaisstraße” and back – a distance of about 14 km – in just an hour.

With over 70 km of port quaysides and 16 million tonnes of freight cargo turnover, the ports of Mannheim and Ludwigshafen form one of the largest inland ports in Europe. A small, large or theme-based boat tour will give you an exciting insight into the constant, busy activity of the port. Tours, excursions and castle trips on the Neckar, starting in Heidelberg, provide the perfect river experience for every taste. The various tours give you a wide range of impressions and the opportunity to get to know the region and the towns along the rivers from a very special angle.

EXCURSIONS BY BIKE

Neckartal-Radweg and Rheinradweg

Past palaces and castles, past forests, meadows and slopes covered with vineyards, industrial monuments and architectural gems, the Neckar flows through the heart of Baden-Württemberg. Always by its side: the cycle route “Neckartal-Radweg” that lets you enjoy a close-up experience of this varied landscape. There is also the option of a tour from Mannheim to Heidelberg, joining the two residence cities of the Electoral Palatinate. The Rhine Cycle Route accompanies one of the most important rivers in Europe over a length of 1,233 km: the Rhine. Enjoy the beauty of the river landscape – perhaps with a cycle tour from Mannheim through the forest area “Waldpark”, to Lampertheim, Speyer or Schwetzingen. Depending on your chosen destination, you will ride through forests, cross dams and weirs and pass through clearings and meadows.

HEIDELBERG

In Heidelberg, there are many popular places, cultural monuments and fascinating attractions to discover. Come and get to know the city that, even in Goethe’s day, had “something ideal” about it.

The Heidelberg Castle with its extensive gardens is, of course, an absolute highlight and probably the most famous tourist attraction in the city. Follow in the footsteps of the knights on the terrace, relive the legend of the witch biting the gate ring, or wander through the water features and sculptures in the castle park. The churches and monastery in Stift Neuburg are not only worth seeing from the outside, but also from the inside. The “Alte Brücke” (Old Bridge), the hiking route “Philosophenweg”, the Old University, Historic Student Prison, picturesque streets in the Old Town and many other tourist attractions are waiting to be discovered.

SCHWETZINGEN

Here, you will find a perfect blend of joie de vivre, landscape gardening, musical delights and culinary delicacies.

The heart of the town is the summer residence of the Elector Carl Theodor with its splendid palace gardens. The palace square, featuring the Elector in an amusing sculpture called the “Glücksschwein” (a pig as a lucky charm) by Peter Lenk, boasts a certain Mediterranean flair. In the springtime, the local festival and the famous Schwetzingen asparagus lure many visitors to this little town in the Electoral Palatinate.

LUDWIGSHAFEN AM RHEIN

On the other side of the Rhine, directly opposite Mannheim, lies the modern city of Ludwigshafen. Take a jaunt to the municipal park “Parkinsel”, admire medieval, modern and contemporary art in the museum “Wilhelm-Hack” or get to know chemistry from a different angle at the BASF Visitor Centre.
